

## **Priority System for Graduate Accommodation**

**New** graduate students at Lincoln College will be offered accommodation using the following priority bands:

### **1. Graduate Scholars with allocated accommodation**

A number of graduate scholarships are awarded with an offer of guaranteed accommodation. These rooms are reserved before bookings are opened to other graduate students.

### **2. PGCE Students**

Due to the nature of their programme and the early start date, PGCE students are in a higher accommodation booking priority band.

### **3. Graduate students domiciled overseas, including Erasmus**

Graduate students domiciled overseas are given accommodation booking priority over those domiciled within the United Kingdom. This is done in recognition of the logistical challenges of securing private accommodation from overseas.

### **4. All other graduate students domiciled within the United Kingdom.**

Within each priority band, accommodation is awarded on a first-come-first-served basis. Students within each priority band will be notified in advance of the date their accommodation bookings open and the window within which bookings can be made. Prompt application is encouraged.
