

Procurement Statement

Lincoln College takes note of and where applicable, follows the University Purchasing Procedures. More information on this can be found at: <https://www.ladmin.ox.ac.uk/finance/ppt/purchasing/>

Good purchasing decisions achieve value for money, are ethical, transparent, take account of sustainability issues and leave a robust audit trail. The College is committed to ensuring that the environmental, social and economic impacts of its purchases are understood and managed.

The College expects its suppliers and contractors to be familiar and comply with its Single Equality Scheme. These suppliers can also provide information on their accreditations and certificates, such as the Marine Stewardship Council which certifies sustainable seafood, as well as the events they run, for example Fair Trade Week.
